Dear Mr. Kreizner:

Thank you so much for sending a copy of your penetration theory. I have forwarded copies to our operations officer for review and study. Copies have also been sent to our logistical and intelligence officers.

All three were initially impressed and were looking forward to studying your theory. I am looking forward to hearing their follow on comments.

I suggest you submit your paper to the U.S Army War College quarterly magazine "Parameters" for publication. Their address is:
